Springfield, IL 62701

**Re: Quarterly Environmental Disclosure Report of Reliant Energy Solutions East, LLC
("RESE") for June 2005 – June 2006.**

Dear Ms. Rolando:

RESE was granted license by the Illinois Commerce Commission ("ICC") to act as an Alternative Retail Electricity Supplier ("ARES") on November 11, 2005 under Docket No. 05-0600. As stated under 83 Ill. Adm. Code 421, each ARES is required to file an Environmental Disclosure Report every quarter describing the sources of electricity, and the pollutant emissions attributable to those sources, used to provide retail electricity service.

RESE has yet to provide any electricity service to customers in the State of Illinois since being licensed. Because no reportable data can accompany this letter, RESE's Quarterly Environmental Disclosure Report for the referenced reporting period is nil, nor will any information be reported to RESE's customers by bill enclosure, as no customers were served. RESE regrets the tardiness of this report due to uncertainty of the need to file in the absence of any customers served.

Any inquiries regarding this issue should be addressed to the following designee:
